TENREIRO: We'll mark this as Exhibit 1. 4 Q Okay. And since you don't have an attorney, 5 (SEC Exhibit No. 1 was marked for 5 I just want to, you know, remind you of a couple of 6 identification.) 6 things that Form 1662, Exhibit 1, cover. 7 THE WITNESS: Question. You're calling --7 You know, it provides, among other things, criminal 8 are you calling it security, securities? Okay. 8 penalties for knowingly providing false information or 9 Q All right. So, what's important here is that you let me 4 authority for the Commission to -- Commission staff to 4 finish my questions and I'll let you finish your answers 5 5 proceed with this investigation. before, that we don't interrupt each other. 6 We haven't drawn any conclusions one way or 6 And it's also important that you give not --7 7 the other about anything in this investigation. So, this only verbal answers. So, shaking the head or nodding the 8 8 head, she won't be able to record that. is a fact-finding inquiry and we're going to ask Is that understood? 9 questions today. 9 A Yes. 10 A Okay. 10 11 11 Q So, don't worry about definitions or words. A Okay. 14 14 Now, you're comfortable with having this 15 Q But, we're going to be -- we're in a 15 testimony in English; is that correct? 16 fact-finding stage and we're going to be asking you 16 A Yeah. Of course. 17 questions. 17 Q Okay. Do you have any medical or any other A That's fine. condition that might impair your ability to give truthful 18 18 19 BY MR. TENREIRO: 19 testimony today? 20 Q Okay. And so, prior -- prior to the opening 20 21 of the record, you were also provided with a copy of 21 Q Is there any reason that you cannot give 22 what's called the Commission's Supplemental Information 22 truthful testimony? 23 Form, which I also e-mailed you with a subpoena and a 23 24 copy of that notice that has now been marked as 24 Q Okay. ## Page 10 Page 12 (unintelligible). So, e-mail doesn't fall under --1 1 THE REPORTER: We didn't send any what? I'm 2 Q All right. Now, I'm going to show you now 2 3 what I'm going to ask the court reporter to mark as 3 sorry. 4 Exhibit 2, please. 4 THE WITNESS: We didn't sell any securities, 5 (SEC Exhibit No. 2 was marked for 5 any tokens. If you would have -- basically, we're 6 identification.) 6 a membership club, so there is no securities, not 7 THE WITNESS: That's what I got. 7 whatever it says there. We had no tokens yet even 8 Q Yeah. Exhibit 2, Mr. Zaslavskiy -- am I 8 to sell, because we never got to that stage. 9 9 saying that right? Zaslavskiy? Sort of? So, we are writing between different people 10 A Max. 10 doesn't fall under your questions. If I would have 11 Q Max? Okay. 11 sold, like you said, tokens or digital currency or 12 A You'll break a leg, that's why I made it 12 that, it did fall, but we didn't get to that stage. 13 shorter, as far as all of it. 13 We closed the project before that. The project is 14 Q Okay. So, Exhibit 2 is a copy -- is this a 14 15 15 copy of the subpoena that you're appearing pursuant to So, writing to people, getting documents today? 16 16 about people, I also don't have all of it, because 17 A Yes. 17 it's all over the site. We don't -- we never kept 18 Q Okay. And, as you're aware, the subpoena 18 it. 19 19 calls for the production of certain documents. But, as far as me completing what it says in 2.0 this paper, I did the best I could as far as A Okay. 20 21 Q And before we went on the record, you 21 explaining it. 22 provided the Staff with a -- with this envelope, this 22 We never sold them the tokens. We never got stack of documents that we haven't looked yet. But, 23 23 to that stage. We closed the project before 2.4 is --24 everything, because we could not -- the backing at 25 A Yes. 25 this point of time is too risky. Page 11 Page 13 1 Q Are these documents provided in response to 1 The backing, you said? 2 the subpoena? 2 A Yeah. The real estate. Do you want me to 3 3 A Yes. explain? 4 Q Okay. Can you please describe the search 4 Q Yes. Go ahead. 5 that you conducted to arrive -- to find these documents. 5 A Here's the problem with the backing of the 6 What did you do? 6 real estate. In case of emergency I cannot sell it fast 7 7 A Internet. It's all public. We didn't hide enough to cover those memberships. 8 8 it. And stuff that was e-mailed, we have it. Q Um-hum. 9 A And the problem, that's one problem, that we 9 We do have -- for example, it says here, if 10 you, like, rewrite a paper, but now we do everything 10 sold, like, a week and a half into it and that's why we 11 Google Drive. So, when you rewrite, it deletes it. So, 11 started close, we close the project. 12 we don't have those rewrites. 12 It's -- what I was saying is basically, in 13 13 case of emergency we can cover it. We would not be able to do it, just because, to sell a house these days takes 14 A I mean, before it -- it wasn't published, it 14 15 wasn't sent. But, when we, like, internally write, 15 longer. 16 nobody keeps it. I'm pretty sure now I need to, but, 16 And -- and a lot of people will own, let's 17 until then, nobody thought they would need it. 17 say, doesn't matter what they own, but they -- I would not be able to convert it back fast enough. 18 Q Okay. And in terms of -- I haven't looked 18 19 at this stack, so, I apologize. But, I'll just ask 19 Q Um-hum. 20 20 you --A That's why we closed the project. I'm sure I'm going to be back here with another project, because, 21 A But, it is -- no. I know I just brought it 21 22 in. 2.2 it's this same thing, it's just different hedge, because, 23 Q The e-mails that you had with people, are 23 the hedging itself, it's more liquid. 24 24 Q You mean, the different -- something backing these in the stack or are you --25 A E-mails with people? We didn't send any 25 it.

## Page 14 Page 16 A Yeah. The backing. I told you this. We 1 1 was not holding. It's not --2 2 moved to diamond, I'm sure you saw on Internet. We're They didn't send direct in e-mail. They 3 3 not hiding the -- we told people that we -- you have a write to us, for example, on Facebook, which is public 4 4 choice of moving or we can refund you. And we can refund information. You can go and see it. I got a couple 5 5 LinkedIn, but I don't answer on LinkedIns, just you. 6 6 So, if, by the time we're going to -- we because --7 MR. TENREIRO: LinkedIn. 7 trying to close it next month, so if you want a list of 8 THE WITNESS: I'm sorry. 8 what's left, I don't have a problem to provide it. 9 MR. It's just -- it's 11 11 Q So, let me ask you --12 fine. It's just, with your accent --12 A Okay. Go ahead. Sorry. 13 THE WITNESS: I can send you where it is. I 13 Q Are you finished? 14 don't, like -- we're not hiding it, but, to send 14 A Yeah. 15 you, what, screen shots, you're going to -- I mean, Q Okay. I have -- I will have a number of 15 16 I'll just give you access to find it. 16 questions. Let me go back to my original question --17 BY MS. SZCZEPANIK: 17 A Okay. 18 Q Let me ask you a question: Do you have --18 Q -- first, which was about e-mails. 19 do you have control over any e-mail addresses? 19 A Okay. 20 A Do I? Well, our own e-mails, yes. 20 Q Have you provided us with e-mails that you 21 Q Okay. THE REPORTER: It's hard to take you both at 6 6 A And I use a couple with my personal, which 7 7 But, I never directly the same time. Thank you. 12 A Just for the money and it linked to a 13 Q So, we can discuss afterwards -- but I'll 13 different e-mail. just, you know -- the -- the covers in the subpoena, but Q What is that e-mail? 14 14 15 we're still interested and we're still requesting those 15 and just -- that's just 16 communications. 16 for, like, Stripe, PayPal. So, if I need to, in case of 17 I understand that you -- or explained now 17 emergency, if you open, I would have that access. THE REPORTER: That's just for what people? 18 that you haven't actually sold tokens. But, the subpoena 18 19 does call for communications with potential purchasers of 19 I'm sorry. 20 20 the tokens, as well. THE WITNESS: Payment systems. MR. TENREIRO: Paypal. Paypal. 21 A Whatever we send out to people, that's all 21 22 there. Whatever they wrote to us into different --2.2 THE WITNESS: Paypal, Stripe. 23 We're talking about -- about 40 different 23 THE REPORTER: Stripe. That's the word --24 sites. And if Q Any other e-mail addresses? 4 A No. That's it as far as -- no. 4 that happens, people are going to get scary. Our 5 Q When you refer to "we" in your answers, who 5 projects will -- will, I believe, will stand all of 6 are you referring to? 6 7 A I have a team of people that's working for 7 But, because of the problems that might 8 me in Ukraine mostly right now. Just because, I mean, 8 come, I'm going to need to convert it back and deal 9 9 with that problem. With the real estate I'm not the whole project, it's not -- it's tokenized, but it's 10 not based on tokens. Try to understand that. 10 going to be able to do. 11 You know Amazon Prime? 11 And another problem that I am seeing with 12 MR. TENREIRO: Yes, I do. 12 real estate, like, I look at the different things, 13 THE WITNESS: Of course. So, it is about 13 the problem is, the real estate is dumping. 14 14 the same. It's just tokenized as a membership BY MR. TENREIRO: 15 15 token. It has different potentials. It has a Q Is dumping? 16 security potential, as far as ledgers, like 16 A Going down. And that's probably going to 17 Wal-Mart is trying to use for their food. 17 come here. 18 So, we -- so, that's why we wrote IMO, 18 So, again, because of all those safety 19 19 not -- because, it's -- all the time ICO, just reasons and when I went to Emen (phonetic), when I talked because it's initial membership offering. They'll to you first time I was at the conference, San Francisco, 20 20 21 have more and more access. 21 like one of the biggest real estate conferences, people 22 That's why I travel a lot. But, 24 They actually agree that it might bubble up. 25 their COC -- I'm not sure what it stands for. You 25 And all of that at the same time. And it was sad, but, Page 19 Page 21 will have the same one for me. But, for the other 1 if it happened a week prior, I would have stopped it 1 2 one, what it is, it's a club. It's not glued to 2 before. Emen was going on when we already started. 3 any software, it's not glued to any one thing. 3 Q When was the date of that conference? 4 The more discount I give the member --4 A We started on August 7th, so the conference 5 (unintelligible) discount. The more affiliate 5 was August 7th, Monday through Friday. 6 program I'll sign up, they'll have, again, 6 Q That's -- and you're saying at that 7 7 discount. conference people were telling you that --8 8 THE REPORTER: I'm sorry. It's like, there is one trying to contact me A They were talking about each other. I 13 with real estate, which is called Atlas I.O., 13 listen. I do not, you know -- I'm going to need people 14 something like that. 14 to explain like I'm explaining what we're doing now, 15 15 That's -- it's not going to happen. pretty sure we're gonna be -- you'll take your time and 16 That's stupid. And that's another reason why I got 16 I'm sure I'm going to come in a second time. 17 scared making with the real estate. 17 Just because, we're not doing what the rest 18 If I'm right -- and I'm not stupid. But, at 18 of the people with all the other crap -- I'm sorry to 19 least 50 percent, it's the bubble who's going to 19 say, but it is a lot of them, like, I read a lot of white 20 blow out like -- dot-com bubble. Do you remember? 20 papers just to see where it's going. We live in a world of -- World 5 Q Okay. So, what --6 A That one I brought. 6 War III, hurricane, anything can happen. You just put 7 Q All right. Great. 7 whole bunch of people. 8 BY MS. We are building a ecosystem, the 10 funds -- how much was taken in? first ecosystem. Not all ecosystem the first. What does 10 11 A We lost the big investors, which is about 11 12 2 mils. The rest, small ones. I think we have left -- I 12 I'm building for my own parking platforms, 13 can send you exact number -- about 100,000 and some 13 for example, like, advertising platforms, where they can 14 change. Those are the people that decided to stay for be able to have access and so forth. 14 15 the next project with us. And some people were just 15 The reason, so, when I go to the, for 16 16 example, to Costco or to -- they'll see, they're not 17 So, like, yesterday we sent out an e-mail. 17 going to be the first ones. 18 (Unintelligible.) # Q And who -- what was your role with respect to this white paper?

A I read it, but, honestly, sometimes when you read a hundred times the same paper, it's just — it's just — there was problems with rewriting a lot of them.

## Q What do you mean?

13 A I look at when I have -- like, I read it,

14 read it, read it and you see zero there. You -
15 when you read a hundred times the same paper --

# Q Do you mean you've read this paper a hundred times?

A I've read all the white papers a hundred times. And they're all the same, they just move in,

- like -- you know, you see the same thing, after you read the same thing so many times, you don't see anything.
- Then it takes about a week, two, when I remember, I start
- 23 re-reading it and I see mistakes and we start fixing it.
- 24 Q Got it.

  - A I am.
  - Q You did?
- 11 A Yeah.
- 12 Q Okay. All right. So, can I ask you to look
- at page 5 of the white paper? It's of Exhibit 4.
- 14 A 5, 4, okay.
  - Q It says, "How does RECoin work," is at the top right, and then it says, "RECoin users purchase the RECoin currency." I'm going to skip that first
- 18 paragraph.

And then it says, "The value of the currency can grow at least two ways, through the steady increasing value of the real estate investments that RECoin is used to purchase and a higher RECoin value when the demand for RECoin rises."

Can you explain, in your own words, what that means, please?

- and at the same time, when you do it all yourself,
- 3 there's only -- like, my health gets off.
  - Q Okay. But, just -- who put -- who put the white paper up on the website?
  - A The technical guys.
  - Q Okay. But, I mean, did you get approval for that?

A To some of them I did. To some of them I might not seen it before and I saw it afterwards and I told them to fix it.

I guess, when you read -- it's not an excuse, but, when you read a hundred papers of the same thing, even if when they fix it a little bit, there's --

I mean, English is a second language, anyway, for me. So, some stuff we understood it would be a mistake in writing after people told us on Bitcoin Talk or on Facebook. Because, they said, "Listen, do this, you should fix it." Or "Do this" -- I couldn't

Q But, you understood that -- that RECoin had a white paper --

- A Of course.
- Q Okay. And you asked your team to draft white paper?

Page 121

- 1 A That was a screw-up. They changed it.
- Q Um-hum. What's the screw-up?

do with the real estate.

A Because, I said hedging, if you can get to the part, and they were writing sometimes banking, if you saw, on different things. That's what we fixed afterwards. Just because, it had absolutely nothing to

And I — the person who's writing, it's one of the co-writers or rewriters, (unintelligible) writers, the right word, they see all of it together, they don't see the whole picture, because, maybe because I don't say the whole picture to most of these people.

Because, like I said, I have a lot of people with, just say, I had a lot of problems, so far, already. Somebody copied -- even before we went copied some images, because the guy went from our site to somebody else and they copied things and screw up and it's going to influence my problems. So, that's where the problems came in.

And I told them to fix it, because, like I
said, it's a hedging or banking. I don't know how else
to call it. It's just separate -- it's like Federal

## Page 122 Page 124 1 There is just (unintelligible) there is 1 Reserve. 2 Let's begin where I got it. I got the idea 2 just -- can you explain why Bitcoin is fine? No. It's 3 3 from old times, from, like, a thousand years ago, 2,000 unexplainable. If -- I call it UFO. But, it has -- it's certain things like the 4 years ago. The new version of it, it's a federal reserve 4 5 which used to be before the gold. 5 ideas, because, there's only -- there's no limitation in 6 The old days how it worked, if you have a 6 the club. If you look at the previous membership clubs 7 second, you have the guy, elder, in the village. I come 7 that's, like, closed, and there's limitations on, well, 8 to the elder, for example, you give a thousands dollars 8 you can give it to your son, to your daughter as will or 9 9 or a dollar, any coins, you could write me a letter, whatever, but because there's limited amount, it grows in value. Who sets that value, it's already people set that 10 "Yeah, I keep a thousand of his," I guarantee that he's 10 11 going to be, basically, 100 percent financial set. 11 value. 12 12 And then you go to next village. So, this Q Right. 13 way you don't get robbed. That's how it was a thousand 13 A But, at the same time, it has the potential 14 years ago. I love history. That's where I got the whole 14 to do different things. 15 15 I mean, in our idea it has the potential so 16 Q All right. So --16 you can actually use it to succeed, to learn something, 17 A So, when I decided -- I decided to be the 17 to buy something as far as on a different platforms to 18 first different accepted club and so forth. Also, in 18 take as partners. Mostly it just gives you more and more 19 19 case -- I'm a human being. I can also make a mistake. But, in case of any -- I'm sorry. I also 2.0 20 If you buy a membership, you pay each month. 21 make mistakes. And in case of anything, there's going to 21 Here you just bought one and you already at some level. 22 be always something that, worse case scenario, will cover 22 The more you use it, your level can grow. 23 23 The more you use it -- like, the idea we are most of the problems. 2.4 Q Okay. So, let me just go back to these 24 looking at, basically -- well, now I'm not sure. I was 25 25 looking at the first, basically, could work in space in statements. Page 123 Page 125 1 So, you're saying it's not -- it's not 1 Puerto Rico on the house right next to, like, an old 2 accurate that the value of the RECoin was going to grow 2 house, like, to be, like, an old club, if -through the steady increase in value of the real estate? 3 3 O Um-hum. 4 A Of course not 4 A -- you know, like, the history and so forth. 5 A nice house on Condado. Puerto Rico. That's the house Q Okay. And you also said -- what about the 5 part that says, "A higher RECoin value when the demand 6 6 I wanted to fix up and that would be, like, the front, 7 for RECoin rises"? Is that --7 you know, the place where people who go on vacation, who 8 A I mean, that's -- it does by itself. We 8 wants to do conferences there and so forth, they can use. 9 don't do demands. 9 Q So -- so, the idea is that the club will Q Right. 10 10 offer more and more services or discounts? 11 11 A It's same as everything else grows. If your A Basically, yeah. Okay? That's why I 12 company, there's more demand for something that's not 12 started a conversation to say I'm not going. Because, 13 13 they always add a new services if they buy a company or 14 14 they're going to partner with a company -- I'm going Q So -- so -- for -- just to make sure I 15 understand. If I buy -- I know RECoin is closed, so, 15 different ways --16 this is a hypothetical. If I buy \$1 of RECoin and then 16 Q Right. And so, what you would be doing is, 17 in the future, people -- there's more demand, people --17 you would be looking for these opportunities for the club 18 somebody might offer me \$2 for it. 18 to offer more services? 19 Is that what that means? 19 A Yes. That's why we couldn't write 20 A Yeah. Basically. 20 all within the -- like, for example, the membership in 2.1 Q Okay. And the value -- how would the demand 21 white paper. Because, today I'm friends with Delta, 22 or why would the demand of RECoin increase? Or of DRC --22 tomorrow I'm not. White paper even changes each time. 23 A Well, anything in the world, there's limited 23 O Right. 24 amount, it can increase. If people like it, it can 24 A You want it, that's it. Then you have the

- 19 it's like, it's crazy what's going on.
  - And because of that, I was afraid that real
- 21 estate would not cut it at that point. Because, you have
- 22 enough people coming in -- if I thought it was at first
- 23 I'm not going to hit the 70 percent mark, even close.
- 24 And the biggest problem is, if that's gonna tie up a lot
  - of finances worldwide, we're going to fall first.

Page 175

Because, even though I'm not exactly like

- everybody else and sometimes I call the bank. And to prove that I'm different, it takes three days of e-mails.
- 4 And they still don't get it after I get with them on the
  - phone. Just because, they ready for big conners and
    - their mind, that's it.

Yeah. We're building a new product. We are

- having problems, like anything else. We are not -that's why I'm afraid to take the investor's money,
- 10 that's why I'm afraid to take --

I did a lot of business in my life, even

12 though I'm only 38, but this is third time I'm on getting

13 on my feet. Let's call it like that.

> I lost -- first time I lost most of money and it was when I was about 20, and then close to 30 and

16 change, here I owed more money than anything.

> And that was the problem. I was fighting before going to bankruptcy. I was trying to fight it and, you know, get on the feet to basically -- but, when

you start every morning from giving what you owe, it's

kind of tough.

I have enough people who believe in me, because, in all my life I could probably say I didn't

screw anybody over, in the full sense of that word.

And in reading certain things, I understand

So, in that bad of economy, remember 2008 and so forth, are you going to sell your house really fast? It's impossible.

# Q Have you located any sources of diamonds?

A I've been around those people for -- since I grew up. Like I said, I have a lot of that. I know where to get them.

But, what I already know, because I talk to my cousins, I talk to a couple other people, the more money you have, to a different level of people you're going to talk to.

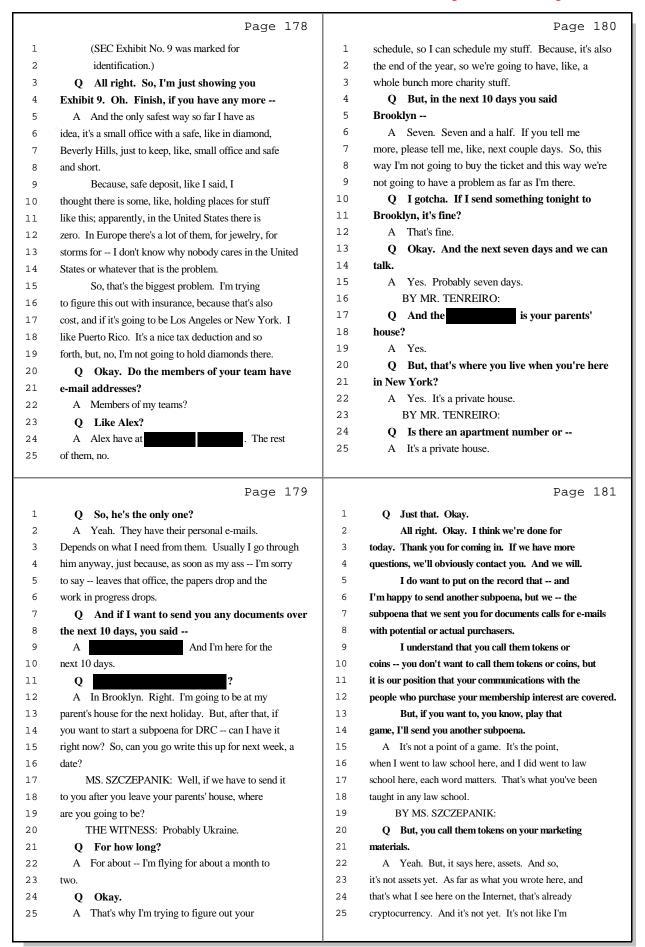

For example, De Beers, I can get minus 20 percent per sale. If you go in with 100k, you can get minus 30. If you go with a million, you can get as low as a minus 70 percent of De Beers market. But, I'm not sure I'll ever get to that amount. You need to buy, like, a hundred million dollars.

## Q Okay. So, the more you raise in the coin --

A The more I can buy it cheaper, then I'll have more hedge.

That's why I didn't -- like, what I'm trying to figure out now, as far as where to hold it. Because, safe deposit box doesn't take all my --
